

Frog Talk

Full Steam Ahead!!!

As we start the new year (a month late on sending out this Frog Talk, I know...sorry), the company wants to thank everyone for the dedication and hard work each one of you has shown the company. We can't do this without you and so we appreciate each and every one of you.

We can't wait to see what this year brings, and we look forward to going on this journey with you all.

Remember, we all succeed when we work together, one team moving in the same direction. Let's hit the ground running!!!

FULL STEAM AHEAD

IN THIS ISSUE

BIRTHDAYS

Who's bringing the beers?

WORK ANNIVERSARIES

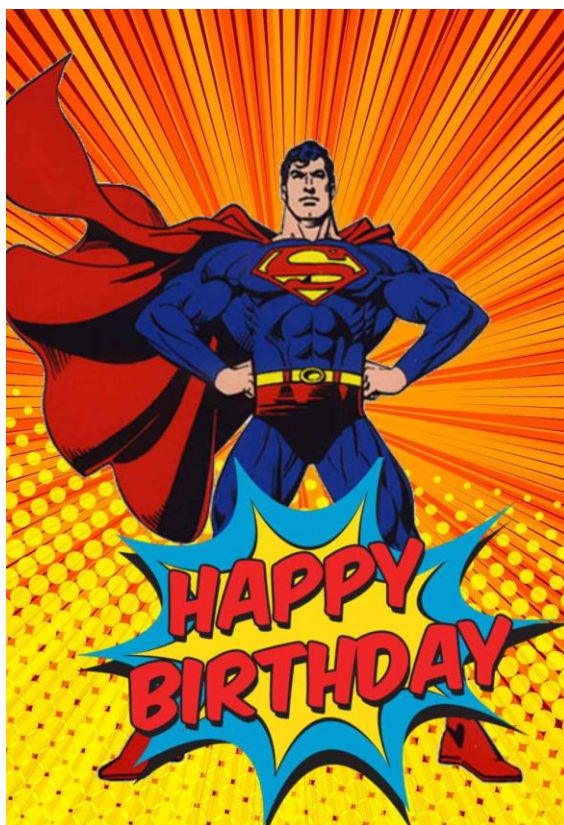

Whooooo!!!

JOBS WE'VE DONE

Let's go get more!!

Birthdays

- Shelly Combs 02/07
- Donny Baker 02/08
- Gerardo Galvez 02/08
- Garrett Wells 02/09
- John Greer 02/11
- Jack Azevedo 02/12
- Don Clinton 02/16
- Josh Cropper 02/17
- Daniel Florez 02/21
- Sergio Lopez 02/27

Work Anniversaries

- Bruno Leon 2 years
- John Padilla 1 year
- Isaiah Saldana 1 year
- Vicente Sanchez 1 year

(1st Pic) Fresno Canal Basin Project

Sergio is cutting into the big pipes to fit the smaller ones in them, for the canal project

(2nd Pic) Hammel Development- Fulton Mall

Ron's crew removed the old plaster ceiling in an empty building at the Fulton Mall

Berkley Ave Apartment Demo

Raymond got a chance to use the 450 high reach on this 7 story building. We got called out to go all the way up to Berkley for this project. There aren't many contractors that have a high reach, and even if they did they don't have the experienced personnel like we do!

Maple Ave. House Demo- Raymond demolished the house, metal building, and trees located behind the Kroeker Inc. yard. Jobs is almost complete pending final inspection and a well demo.

Oral E Micham- West Fresno Elementary School New Kitchen Addition

Dustin, Dennis, and Michael, separated the canopy and cut back the roof over hand to the building in order for the new addition to be built.

In the second picture you can see Kurt Myers game planning....at 10:30 in the morning....on how he's going to take the remainder of the asphalt out.....

PGE- SPCC Pond in San Jose

Adams crew successfully poured the pond out in San Jose at the Santa Teresa Substation.

Strategic Mechanical- Asphalt Patchback

Don and AZ led the patch back crew at the Strategic office.

Shafter High School-Klassen Corp

Stadium demo! Bleachers, call box and lights were taken down in preparation for the new upgrades they will be receiving.

CalRecycle Clean Up- Forgen

As many of you know, we have been hard at work up the mountain, cleaning the destruction left behind by the creek fire. The crews that have been up there have been kicking ass!! We've only completed 17 of the 90+ properties that are ours to clean up.

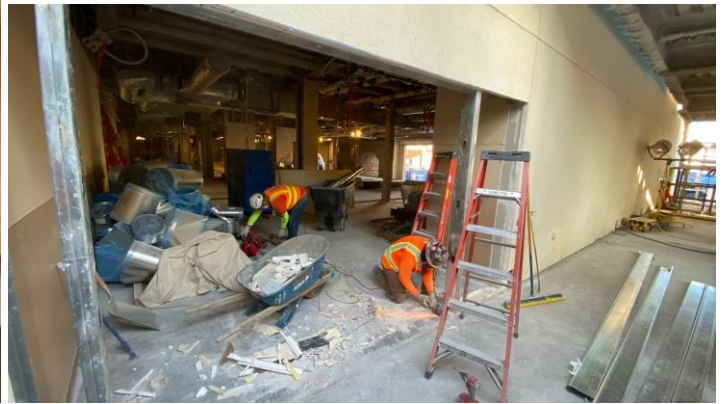

Forgen Job continued...

Once the snow came in we had to pull off, for obvious reasons....but once it melts we will be back up there doing what we do best!

Placerville Service Center- Roebelen Contracting

Utility crews sawcut, and broke out some asphalt in order to install new pads for the new seismic upgrades, that most of the service centers will be receiving.

**And last but certainly not least....Clark
Construction- CCMC**

The Clark job has continued to move forward, the guys out there have been taking care of business. The guys have had to work weekends, odd hours, in occupied areas, being pulled from one area to another because we continue to be the go to contractor for Clark Const. Keep up the good work!
