CORE COMPETENCIES

With over 40 years of experience and excellent employee retention Kroeker, Inc. is a leader in the Demolition and Recycling Industries throughout the American Southwest.

Demolition Services: From public to private; federal to local municipalities, Kroeker Inc. provides all forms of demolition ranging from interior, exterior, site clearing and select demolition.

Utility Construction Services: Kroeker Inc. maintains a fleet of fully equipped vehicles to construct any type of concrete foundation, grade and pave, selectively removing assets and foundations in utility electrical and hydro substations throughout the southwest.

Concrete Saw Cutting and Core Drilling: Another fleet of fully outfitted vehicles with standard core drills and flat sawing capabilities, Kroeker Inc. specializes in wall sawing units and deep cut capabilities utilizing a 72" blade.

Roll-Off Debris Box Service: With over 300+ Debris boxes ranging from 10 to 50 yards and a fleet of Roll-Off trucks to support them, Kroeker Inc. can drop off to remote locations and exchange as required.

C&D Recycling Facility: Kroeker Inc. maintains a fully licensed Solid Waste Recycling/ Transfer Processing Facility located at our yard. Our facility is open to the public and recycles over 90% of the construction and demolitions debris generated ensuring a greener footprint wherever we operate.

Concrete Recycling: Maintaining a fleet of portable concrete recycling plants provides Kroeker Inc. the ability to crush and recycle concrete and asphalt on a job site or virgin material at a quarry site. A large crushing plant within our yard also provides finished product that meets or exceeds Cal-Trans Class II ¾" base rock specifications.

Trucking and Heavy Hauling: A large fleet of 10 wheeler to semi-end dump trucks for hauling the demolition debris when needed and not dependent on another third party dispatcher allows Kroeker Inc. to heavy haul low-bed type units to get the equipment to and from the job site as required.

Emergency Response and Hazardous Material Hauling: Kroeker Inc. provides certified hazardous waste transportation and disposal services to a variety of industrial, commercial and government clients, ensuring OES, FEMA and USFS has a dependable 24 hour and rapid response team to handle any required emergency.

SPECIALITY EQUIPMENT

Hi-Reach Excavator - This machine weighs in excess of 140,000 lbs. and has a vertical reach of 82 feet, more than adequate to reach the top of a 5 story structure. A hydraulic shear or 6,000 lbs. hydraulic breaker attachment can be used at the machines maximum height of 82 feet.

LaBounty UP 70 - This is a Hydraulic Universal Processor capable of crushing concrete structural walls and foundations up to 36" thick. It can be reconfigured to cut steel up to 1" thick such as steel tanks and structural steel members. This unit allows the crews the opportunity to selectively demolish and control the demolition environment.

LaBounty UP 30 - This is similar to the UP70 on a smaller scale. It also is attached to a Hydraulic Excavator at the end of the third member or stick portion of the unit which allows for more reach than the UP70. Concrete pulverizer and steel shears are standard also.

Concrete Breakers - Kroeker Inc. has a wide variety of sizes depending on the size of material to be broken. The largest is a 16,000 lb. breaker used on massive foundations and rock excavations. Kroeker also has 8000, 6000, 4000, and 2000 lb. breakers all attached to hydraulic excavators.

Mini Excavator - Kroeker Inc. has a robotic electric excavator equipped with a hydraulic breaker and shear used primarily on interior type renovations where access is restricted. This unit will travel through a 36" opening and reach 14' all while keeping the operator a safe distance from the work.

DIFFERENTIATORS

Union Affiliation & Skilled Labor

Kroeker Inc. is a Union Contractor and Signatory to the Operating Engineers Local 3 & 12, Laborers International, International Brotherhood of Electrical Workers I.B.E.W., and Carpenters Local 701. Kroeker is well versed in the requirements of Certified Payroll and Compliance.

PAST PERFORMANCE

CAL Recycle, FEMA , Debris Cleanup - Southern Region DRR#20058

As a sub-contractor to Forgen our scope is the removal of all contaminated soil and debris from home sites within the region and returning parcels to a rebuilding state eliminating vehicles, metal, ash and concrete/wood from over 800 potential homes. Value over \$10 Million and ongoing.

Clovis Community Hospital

Our Scope includes Building and Selective Demolition, Over-excavation/Re-compaction, and Grading. Value \$4.8 Million and is ongoing.

Costco Tracy Depot

Our Scope includes over 600,000 sq. ft. of Building and Selective Demolition, Site Demolition & Clearing, Onsite Concrete and Asphalt Recycling of 108,000 tons and Removal of Underground Infrastructure. Value \$3.2 Million and is ongoing.

United States Forest Service Emergency Fire Response

US Forest Service Emergency contractor providing crews and equipment including transports, excavators, loaders, graders and water trucks for support of various Federal fires. Value over \$1.1 Million and ongoing.
