

Supplier Diversity Statement

At Kroeker, Inc, we recognize the need to increase our involvement with diverse suppliers. As we continue to team up with subcontractors, suppliers, and others with diverse backgrounds, we expand our investment in the very community where we all live and work.

These diverse companies must be competitive and they must also meet the expectations of our customers. This task, although difficult at times, has challenged us to achieve the following spending goals:

15% Minority Owned, 6% WBE, and 5% DVBE

Two new companies have joined us recently, and we are excited to include them in our business activity. One is a WBE small business, and the second is a DVBE small business. Utilizing these new companies along with other diverse suppliers will help us reach a whole new level of diverse business activity.

In order for our community and our overall economy to succeed, we must work together in all areas. Here at Kroeker, Inc, we are dedicated to good business practices. Partnering with diverse companies is good business.
